NAVY/MARINE

Quality and Competence

A-MAGNETIC

We supply a-magnetic galley equipment with corresponding a-magnetic components like heating elements, cooking plates etc.

VIBRATION PROOF

Basics of our scope of products are supplied in vibration resistant version.

SHOCK PROOF

Our equipment is available in shock proof execution . Based on different shock requirements we can supply the adequate solutions not only for shock mounts but specific constructions also.

HYGIENIC

Cooking appliances and counters, refrigerators and st-st furniture can be supplied in accordance to USPH standards and European standards also.

OUR COMPETENCE

The company August F.M. Bohnhoff, was founded in the year 1875. Traditional standards of craftsmanship are the base for the production of high quality catering-equipment for ships. The production of appliances for seagoing-ships started in the early years of the 20th century.

Galley- and pantry-equipment in special navy design has a long tradition in our supplies to German and international Navies. BOHNHOFF developed shock- and vibration-proof equipment as well as a-magnetic furniture and appliances for frigates, corvettes, mine- sweepers, submarines and support vessels. NATO standards can be fulfilled.

Your requirements and our experience provide the base for a successful cooperation. Your projects will gain a lot from our competence. The most modern design facilities will provide efficient planning. We support your project from the initial planning up to the final commissioning.

Daily dispatch of spare parts is an important issue of our business.
